

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

Solid formed by rotating the shaded area about the x-axis

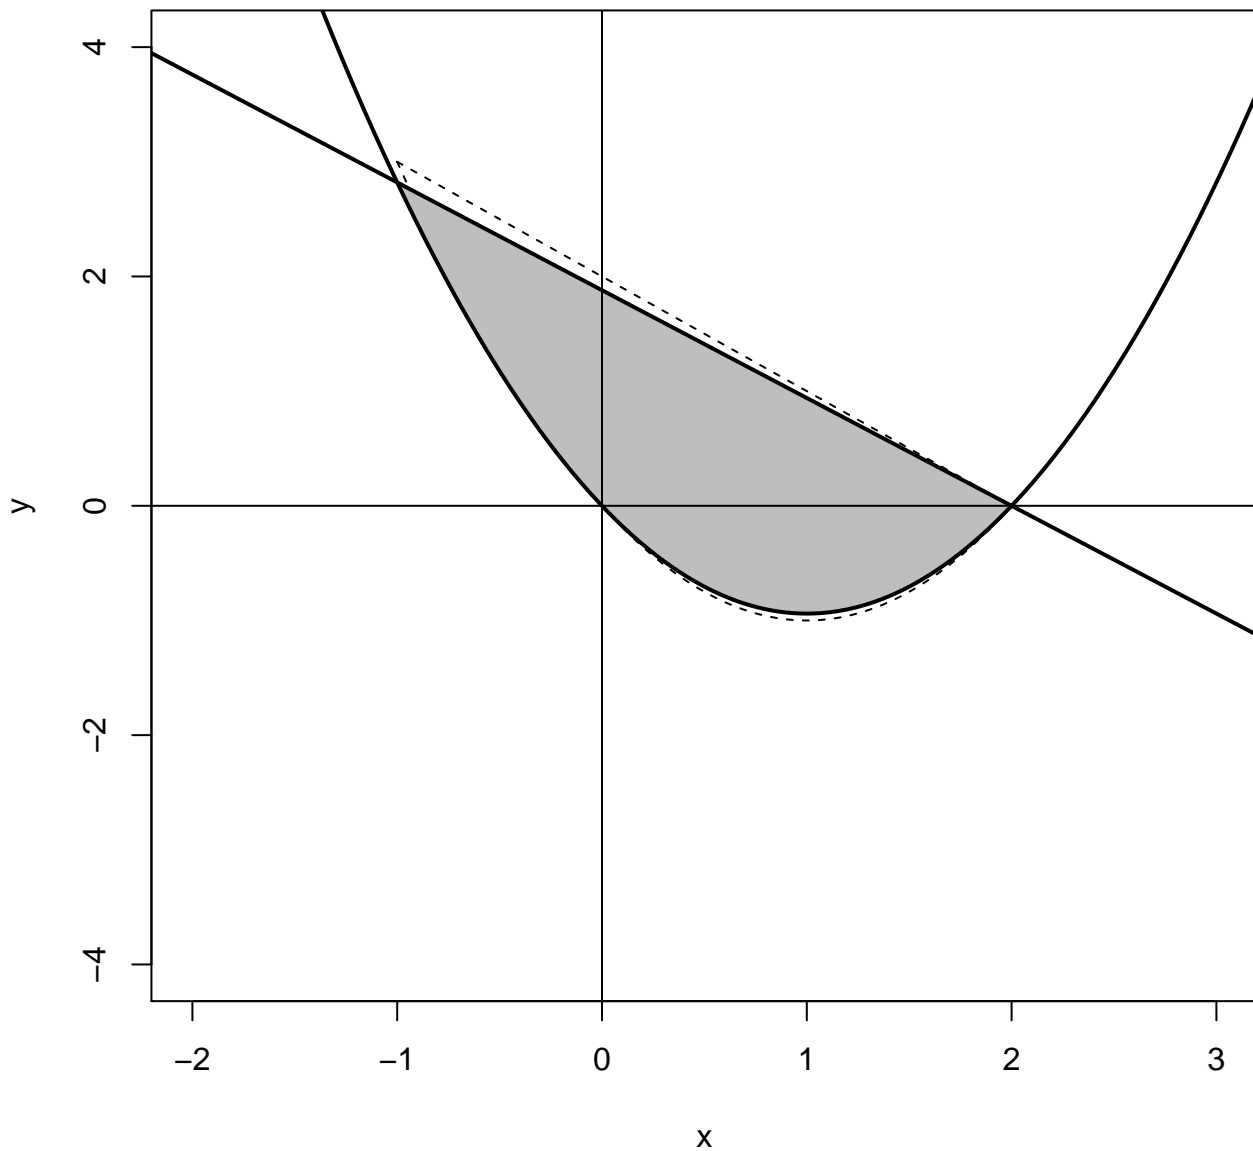

Solid formed by rotating the shaded area about the x-axis

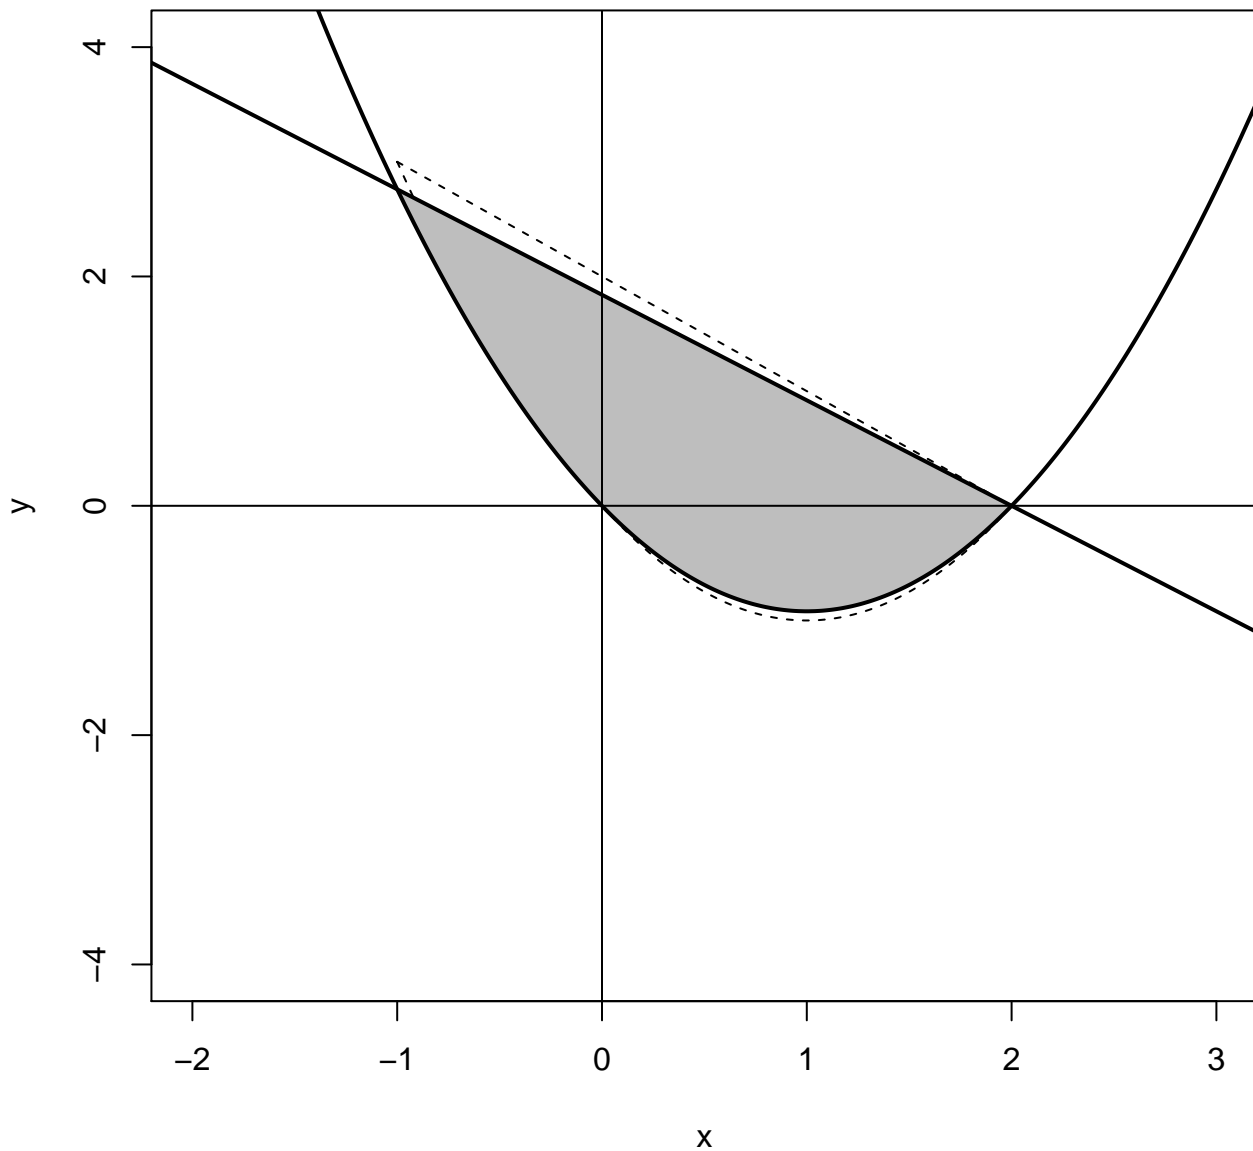

Solid formed by rotating the shaded area about the x-axis

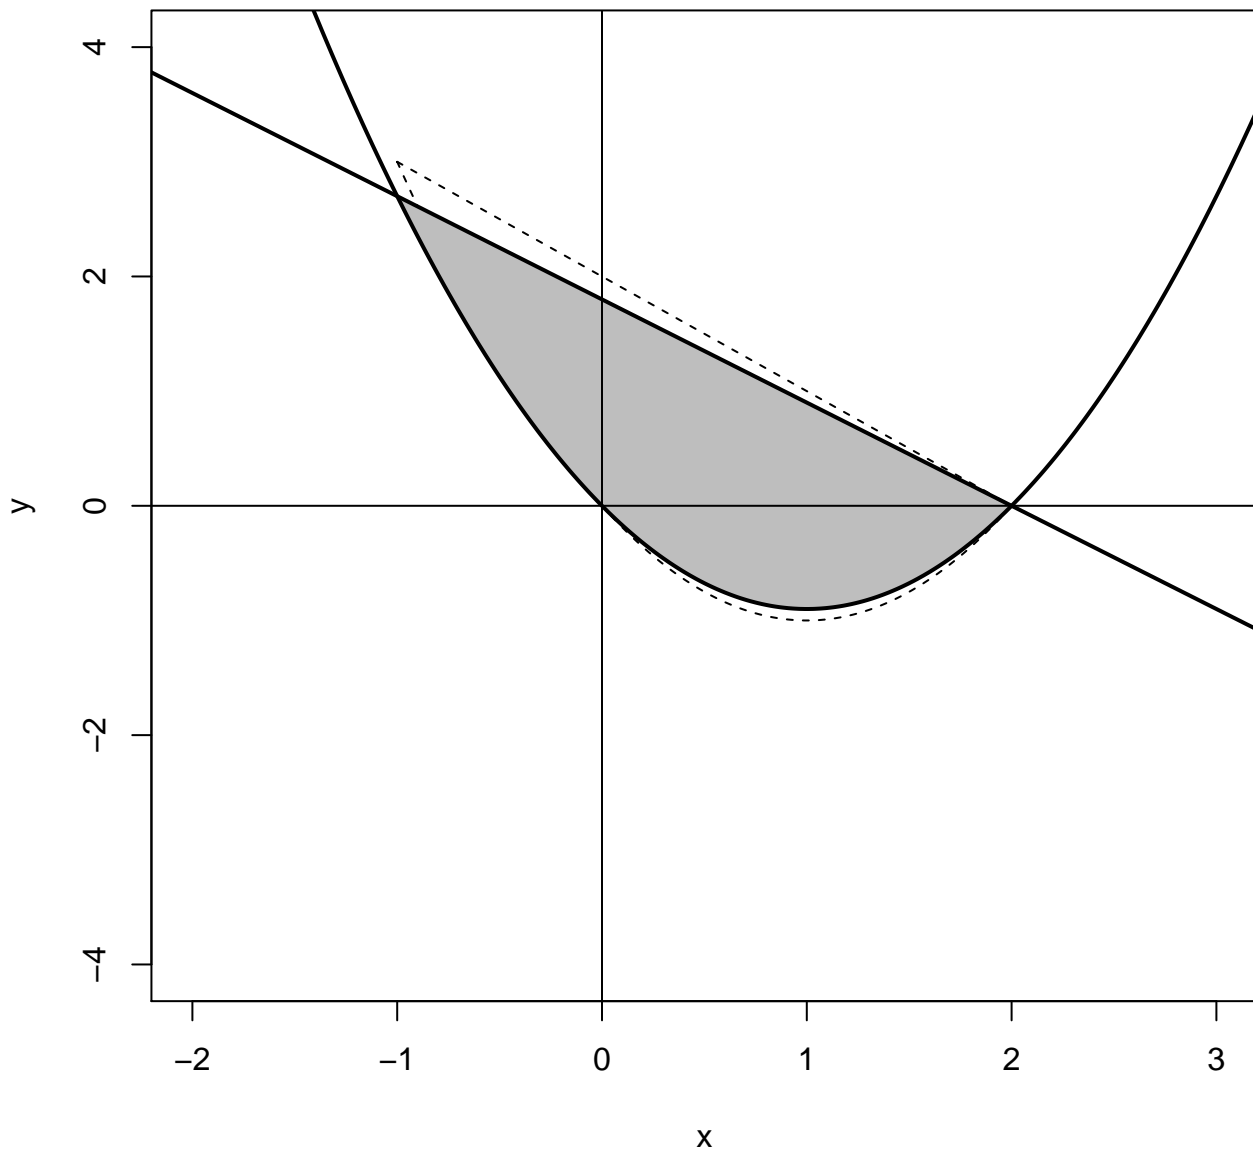

Solid formed by rotating the shaded area about the x-axis

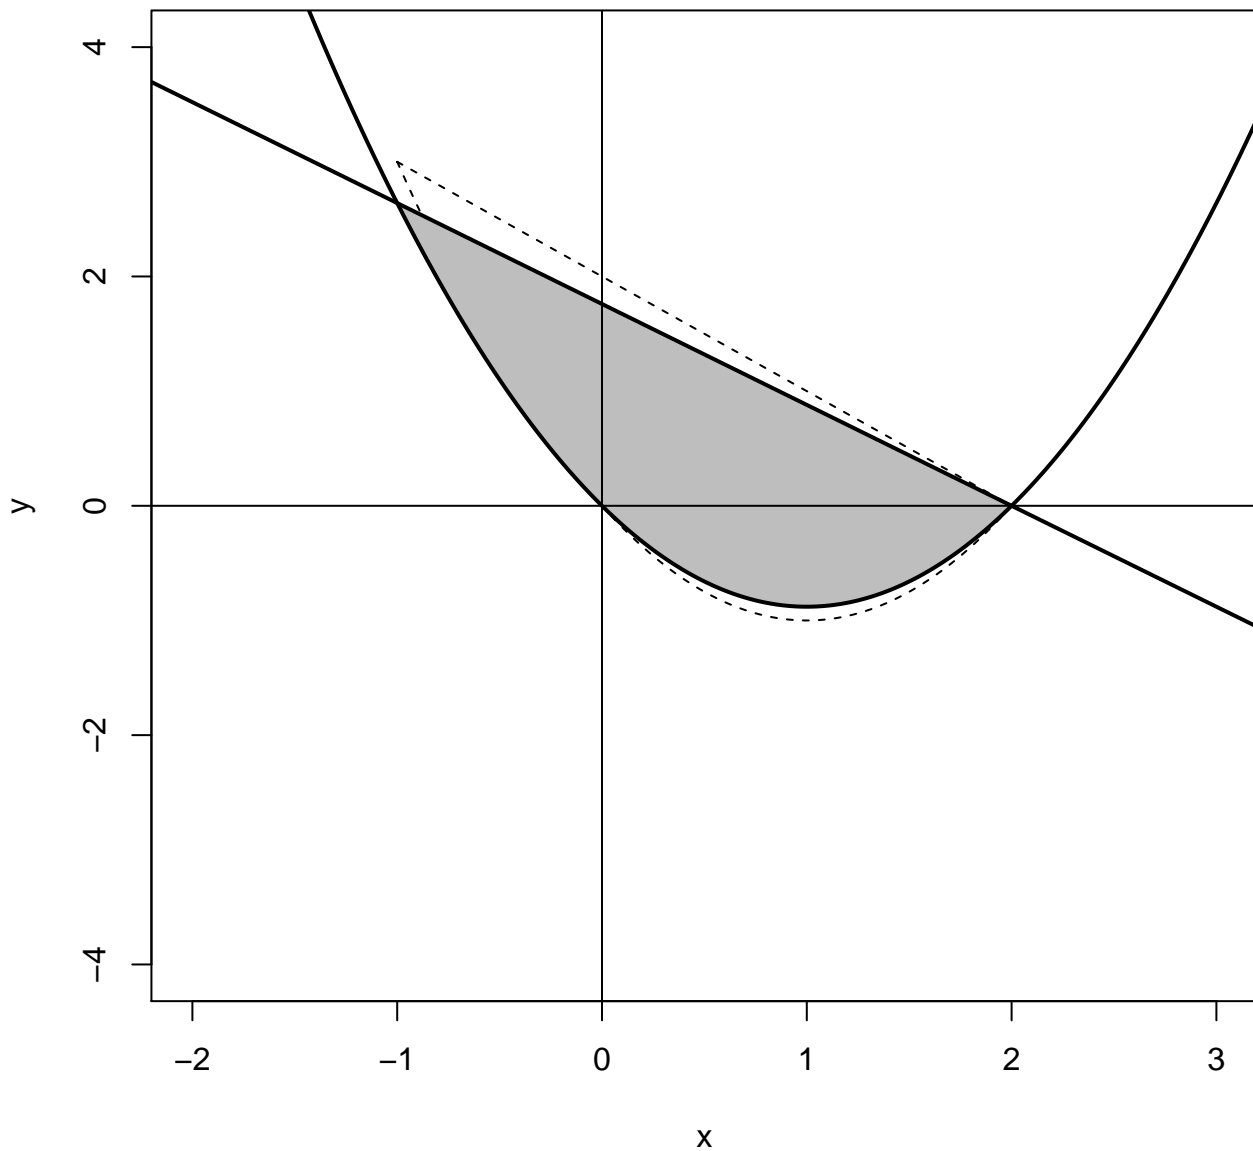

Solid formed by rotating the shaded area about the x-axis

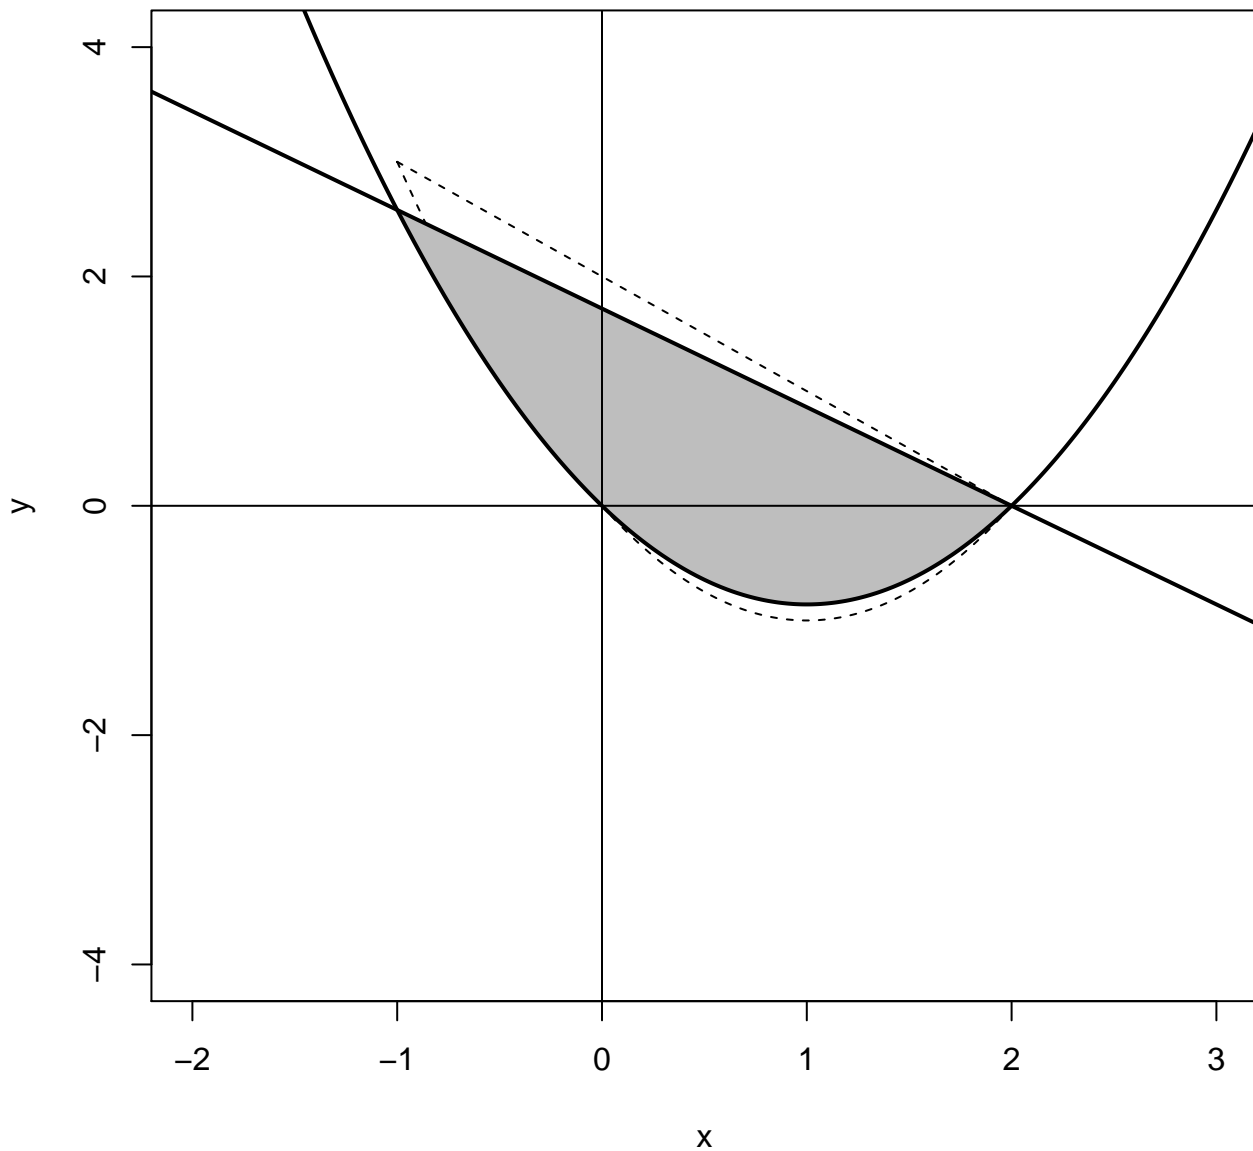

Solid formed by rotating the shaded area about the x-axis

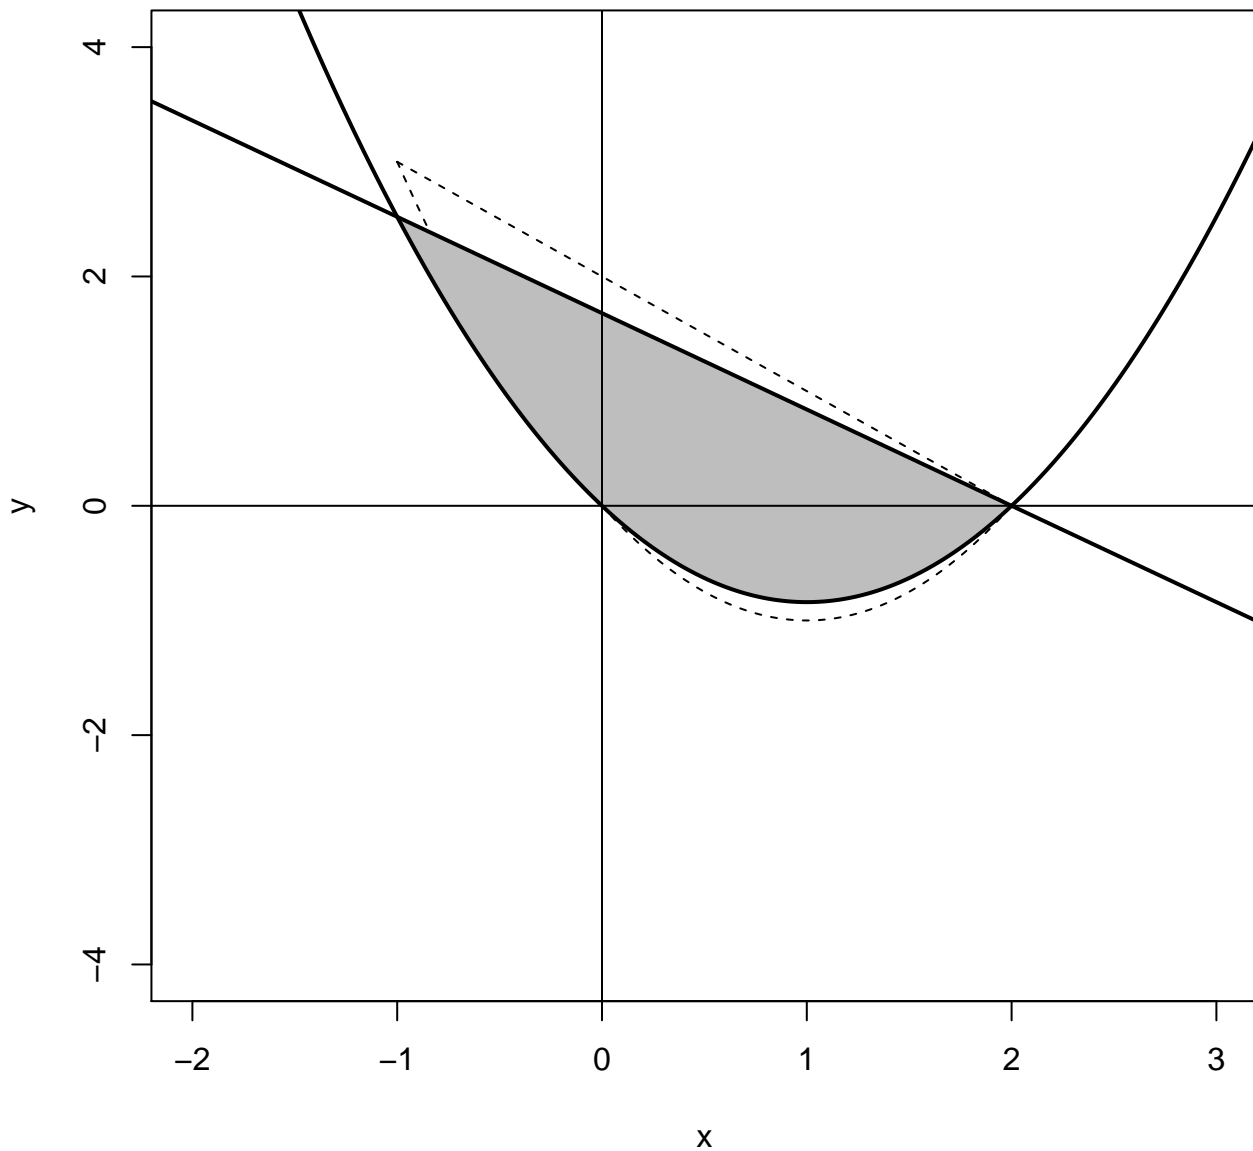

Solid formed by rotating the shaded area about the x-axis

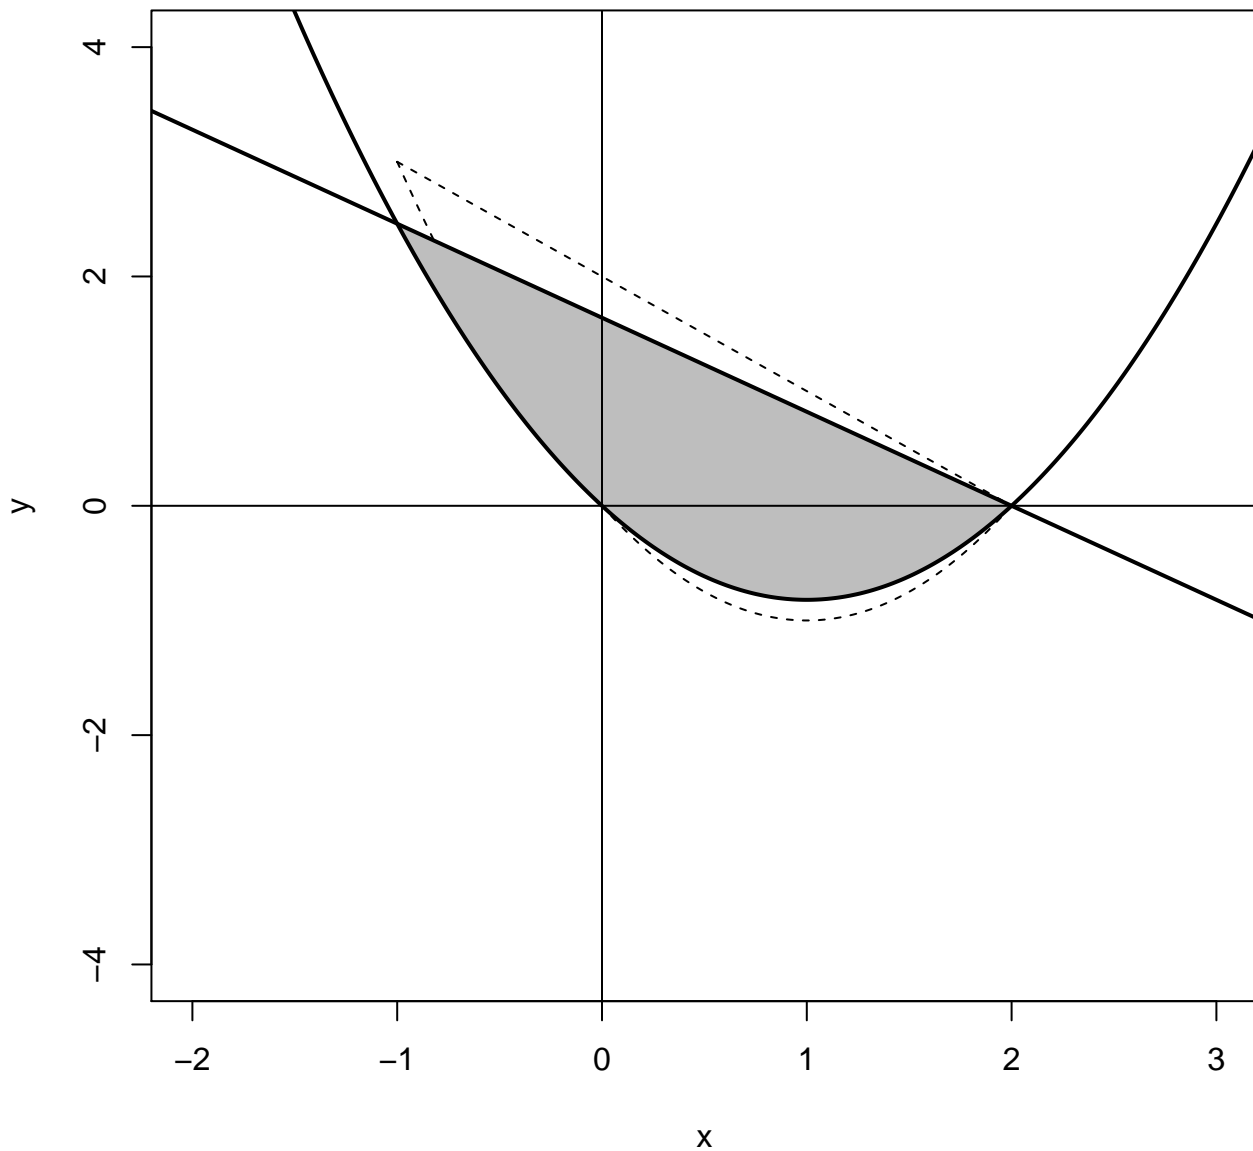

Solid formed by rotating the shaded area about the x-axis

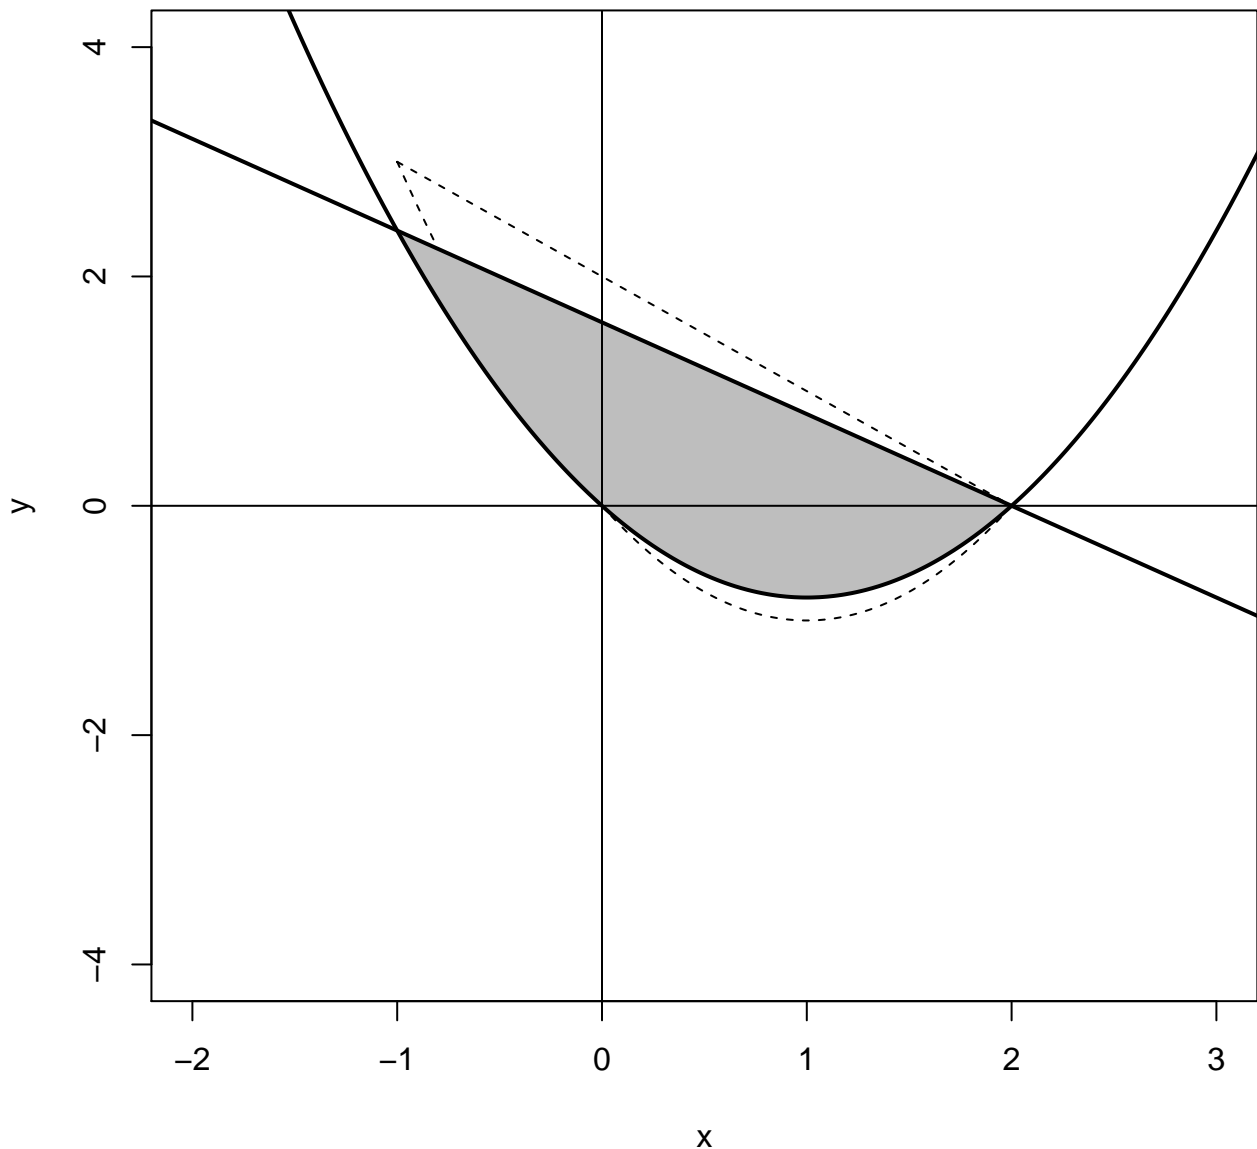

Solid formed by rotating the shaded area about the x-axis

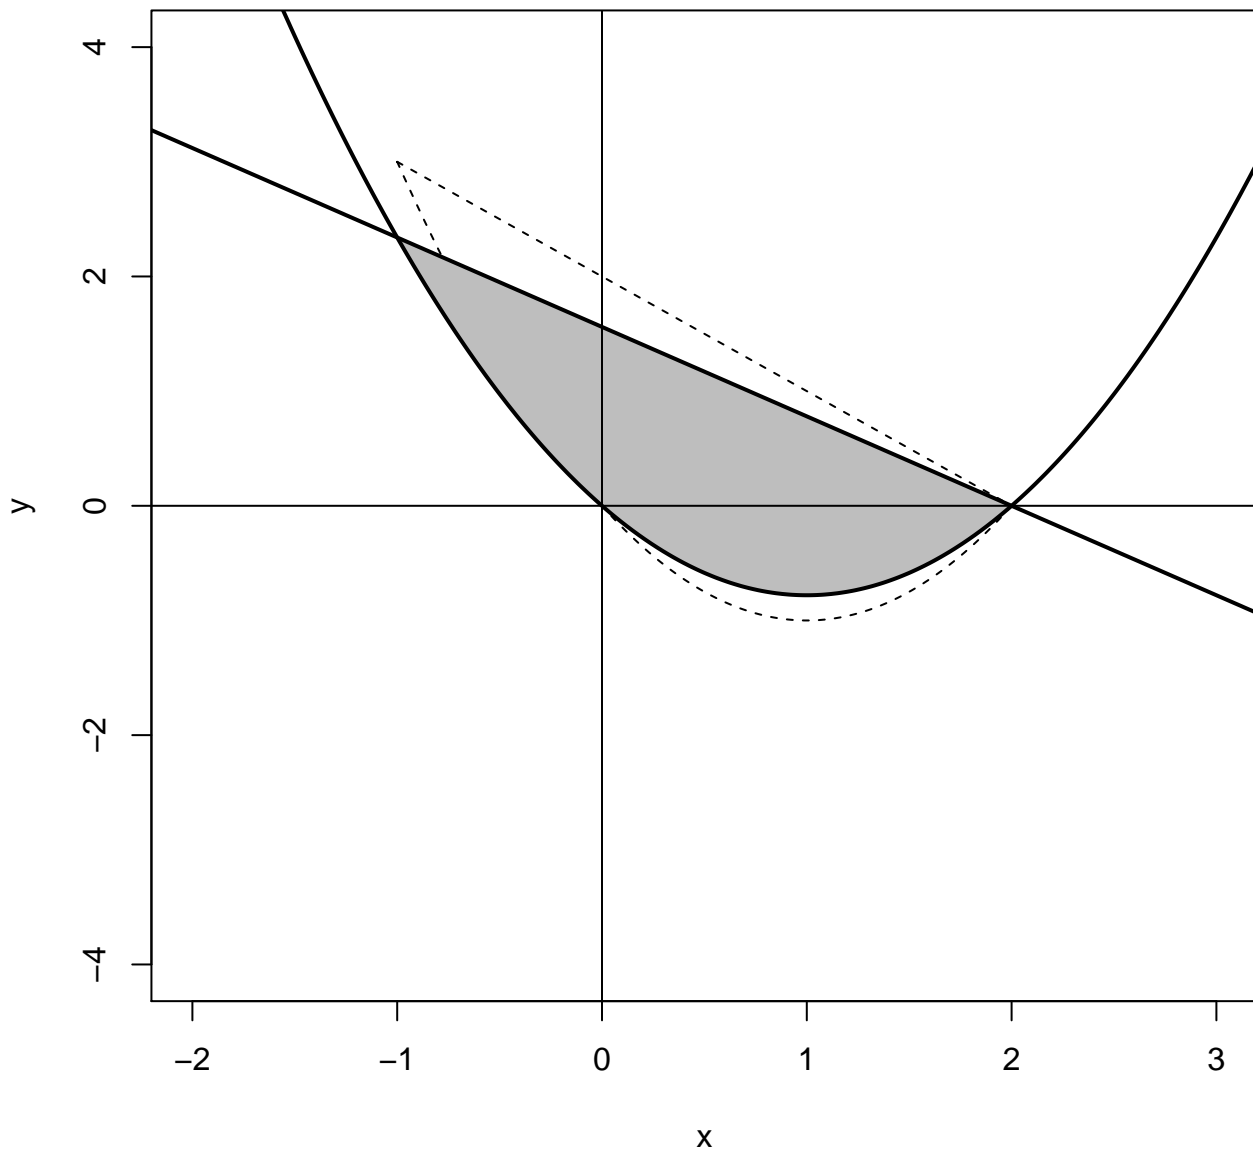

Solid formed by rotating the shaded area about the x-axis

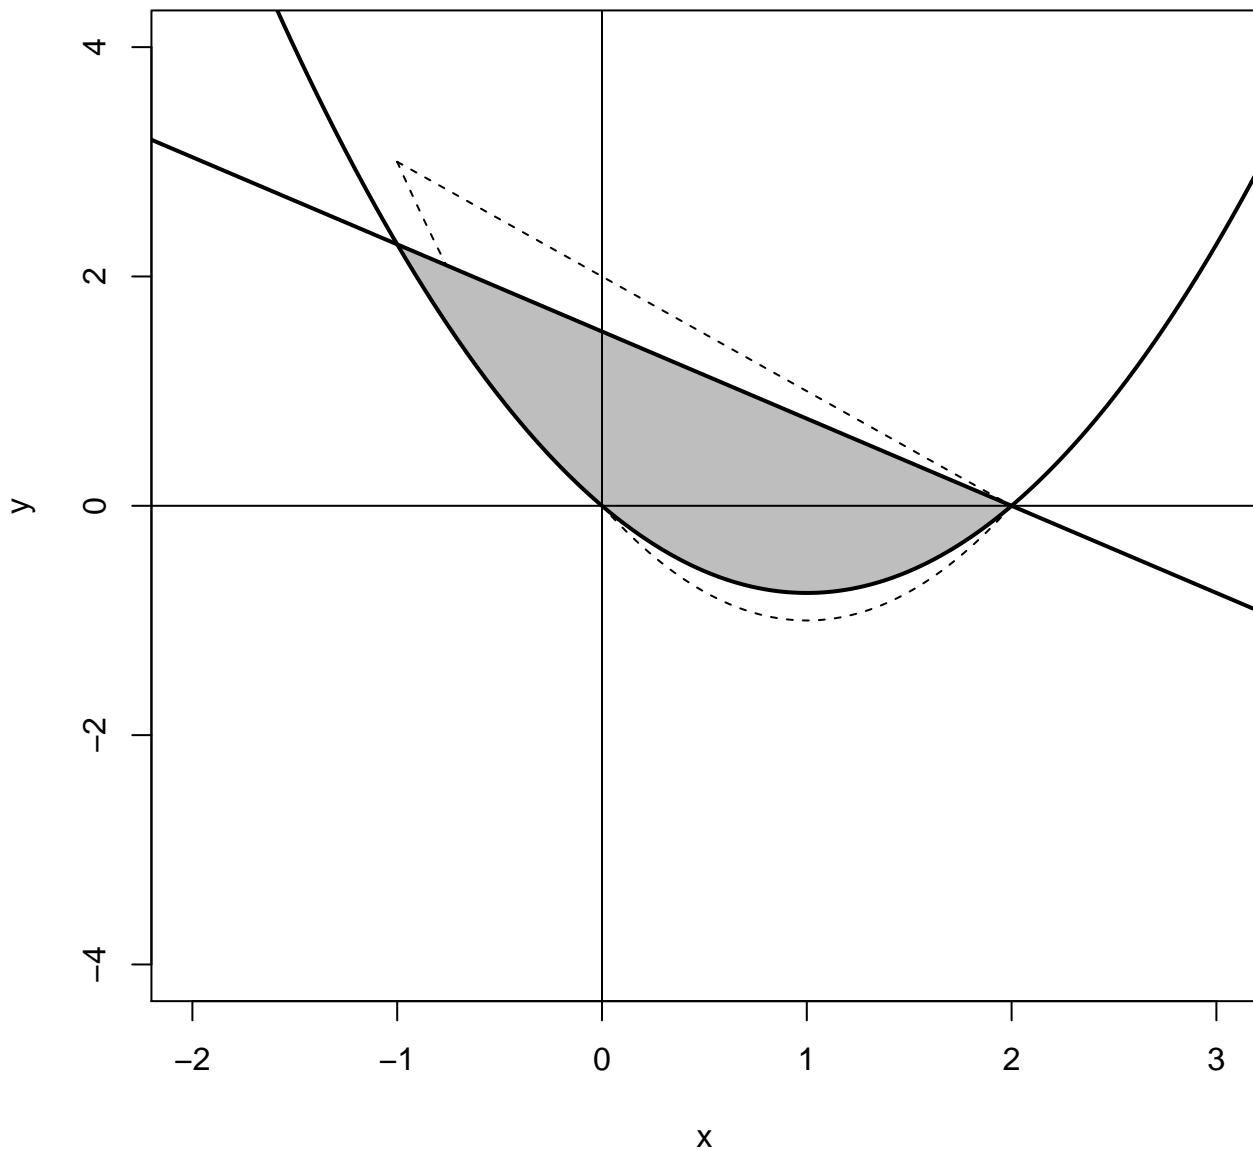

Solid formed by rotating the shaded area about the x-axis

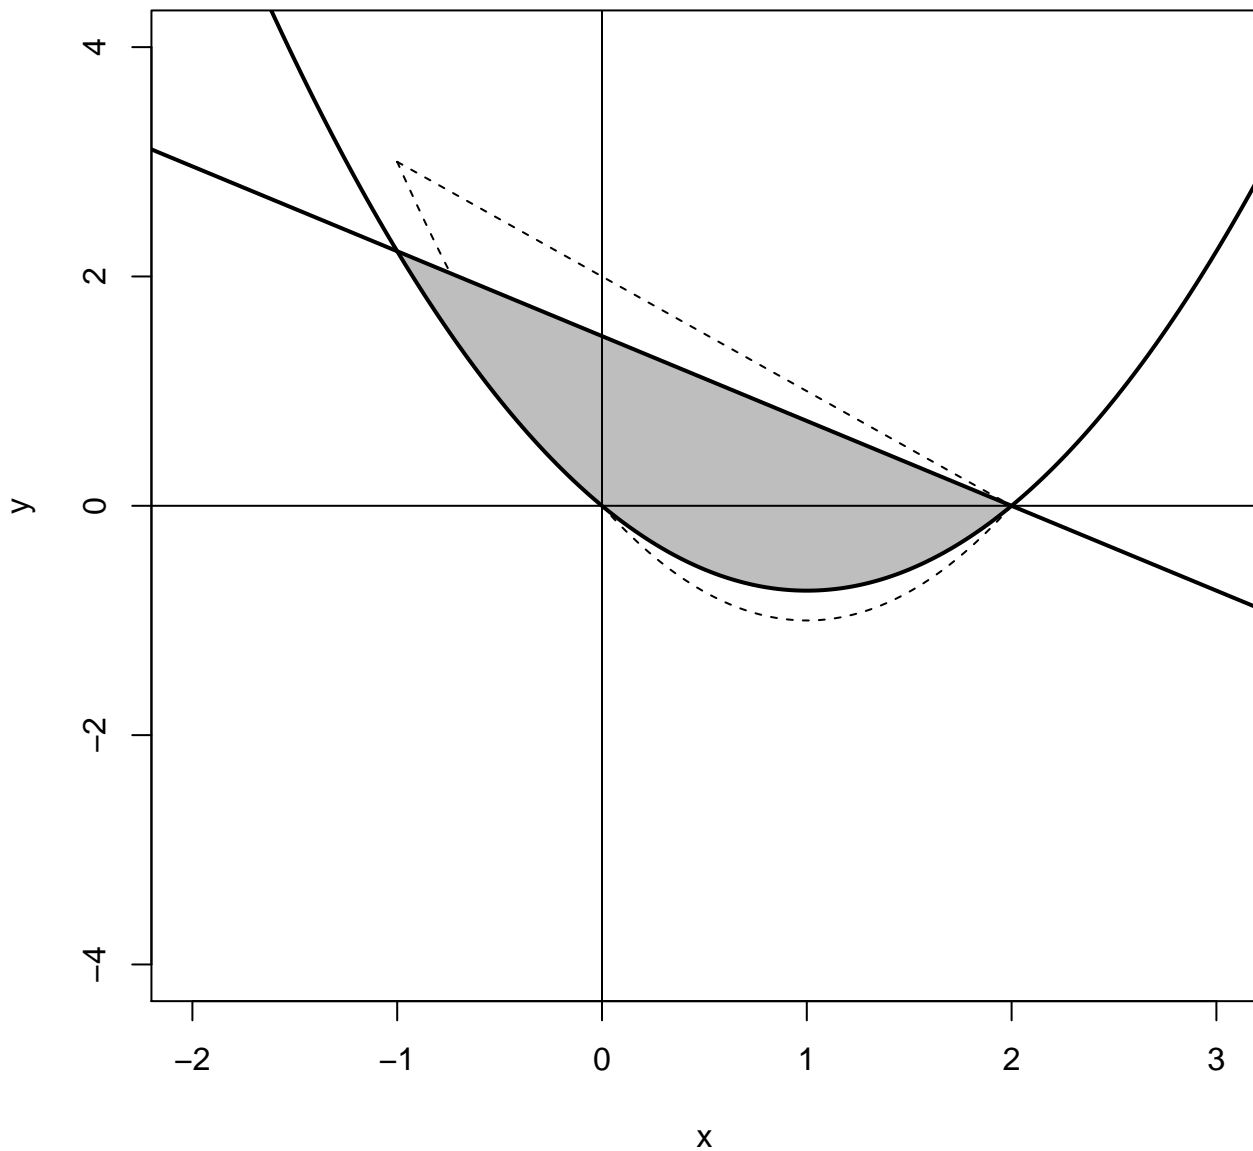

Solid formed by rotating the shaded area about the x-axis

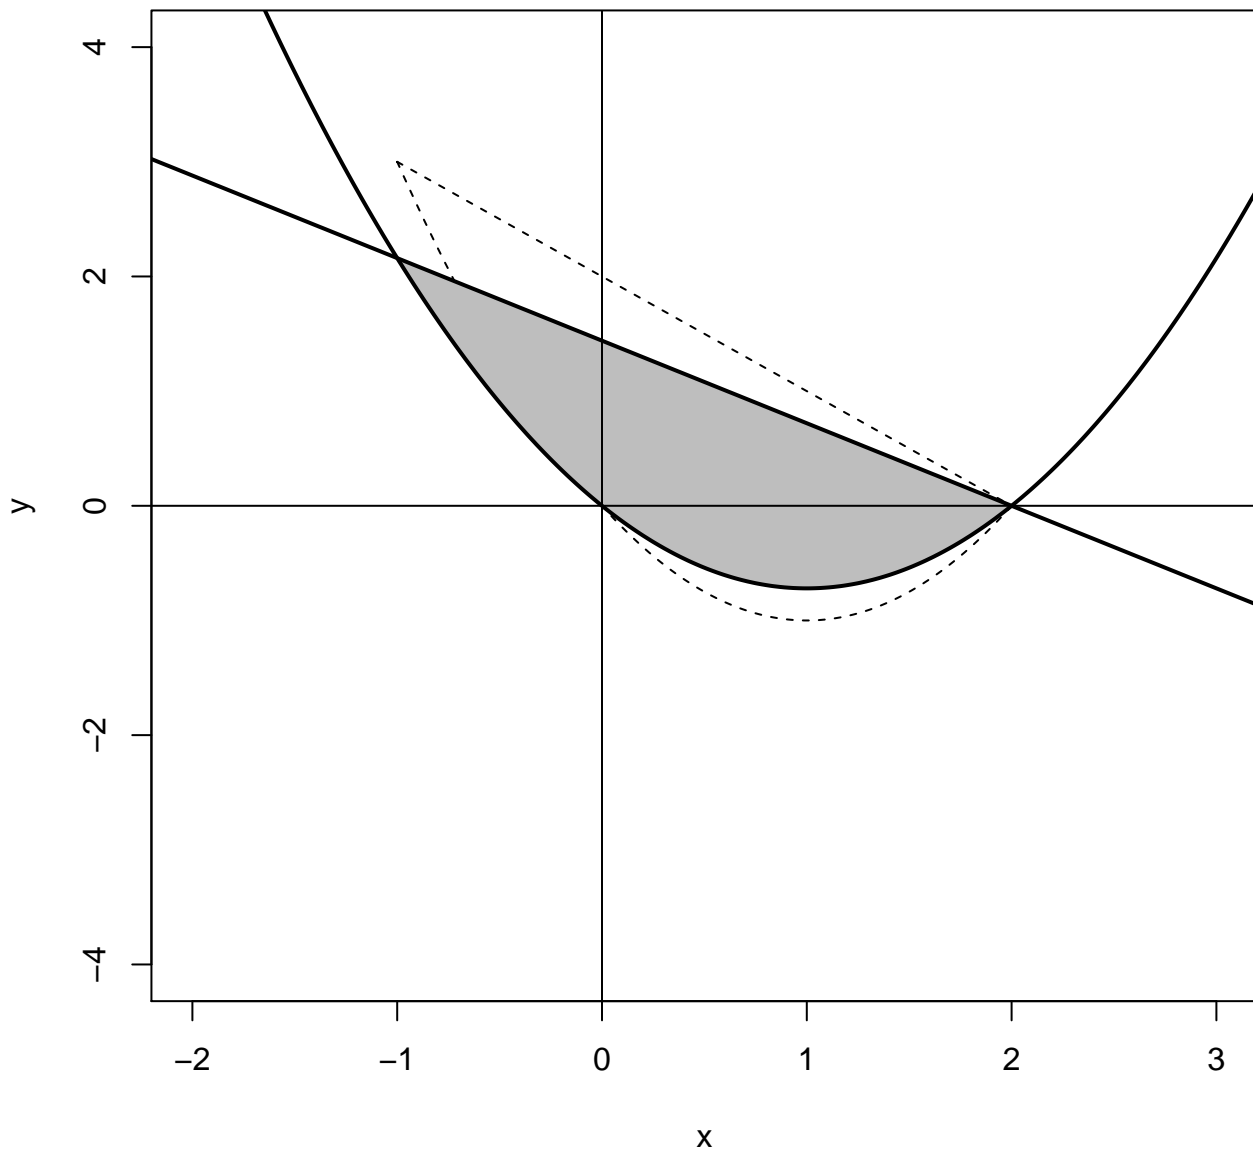

Solid formed by rotating the shaded area about the x-axis

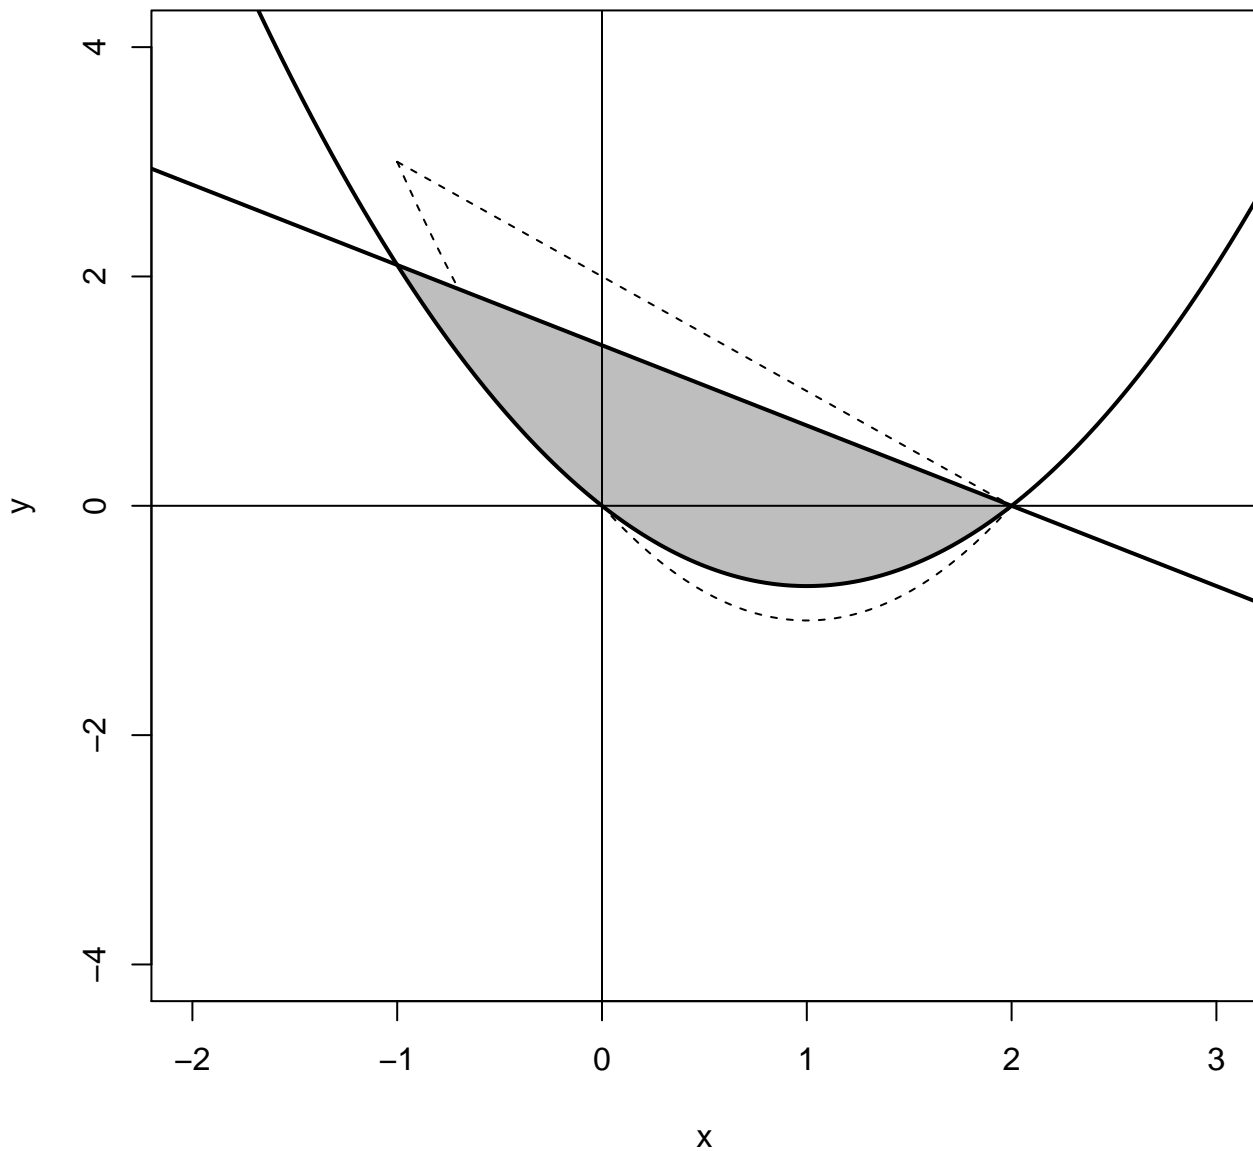

Solid formed by rotating the shaded area about the x-axis

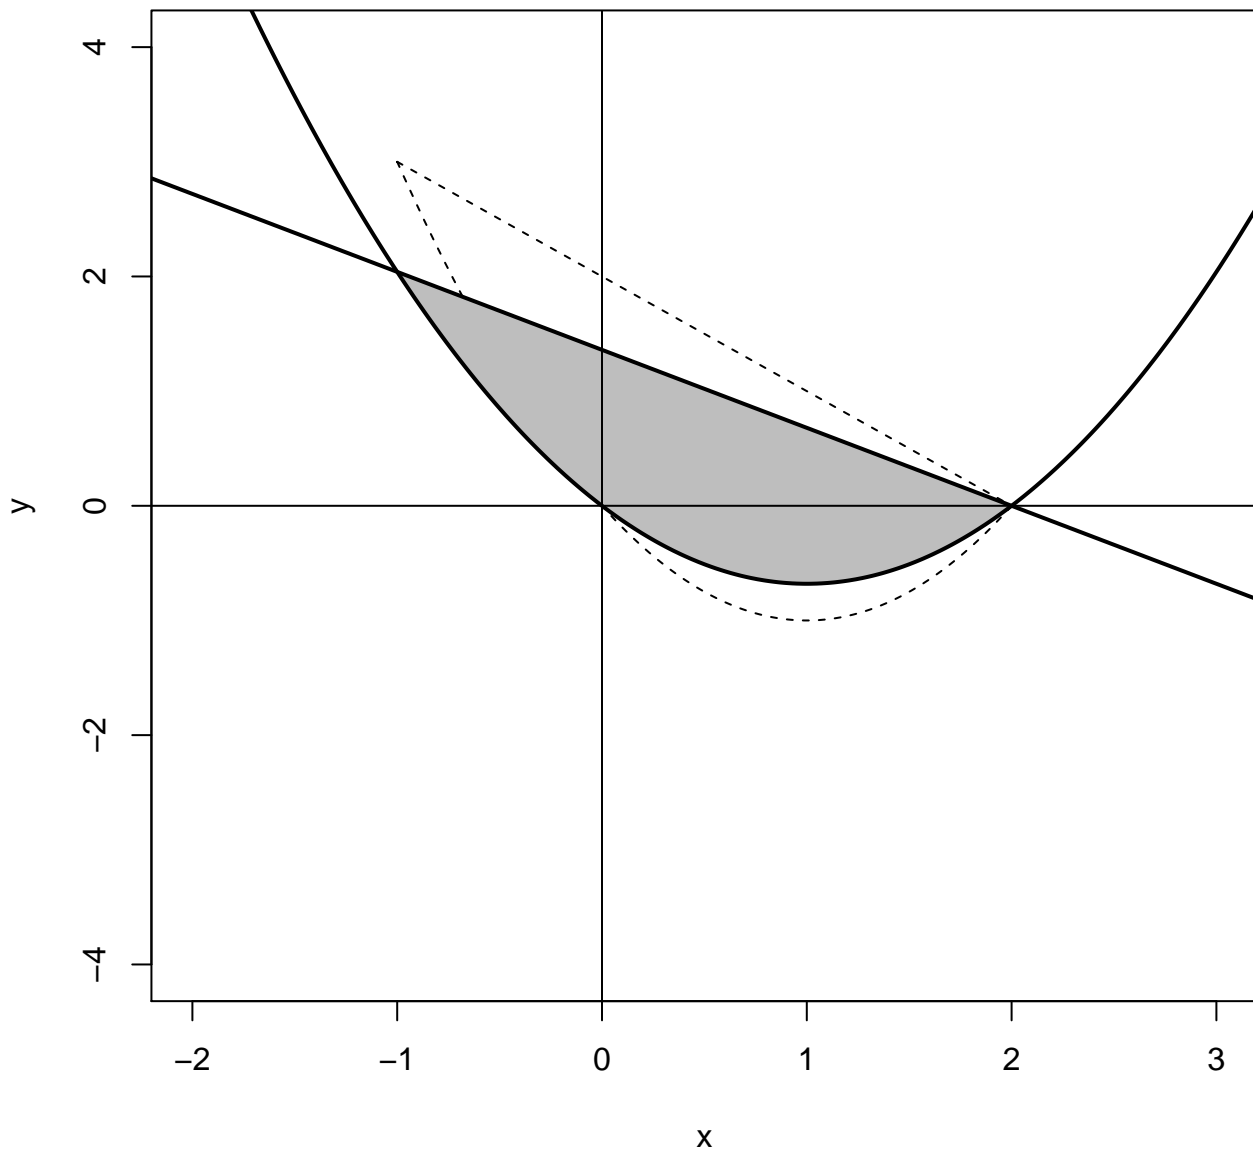

Solid formed by rotating the shaded area about the x-axis

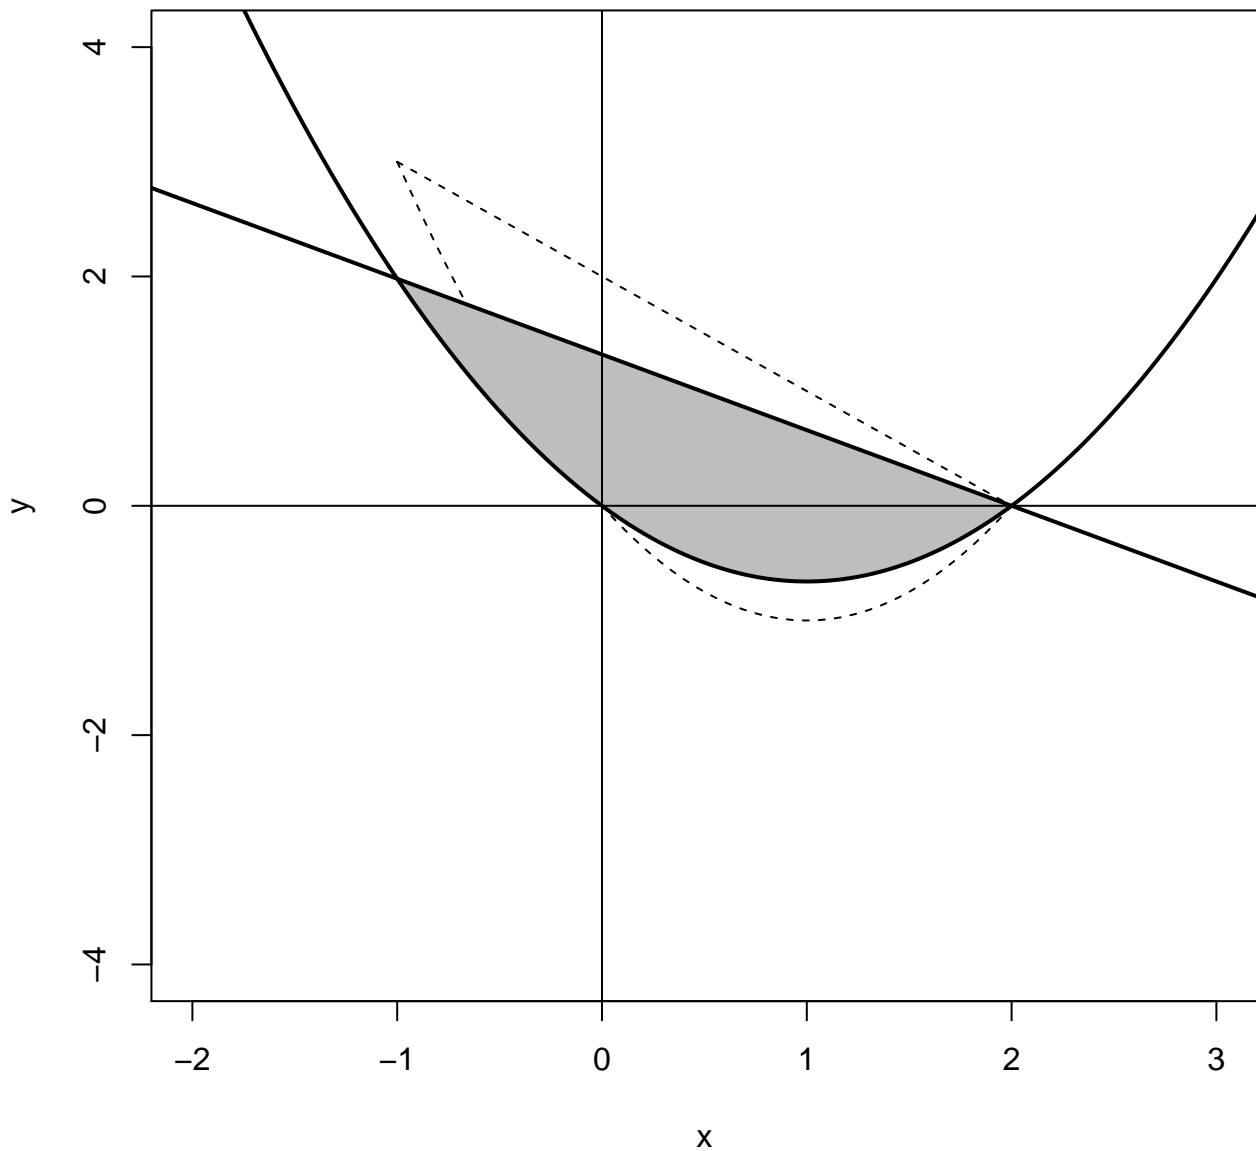

Solid formed by rotating the shaded area about the x-axis

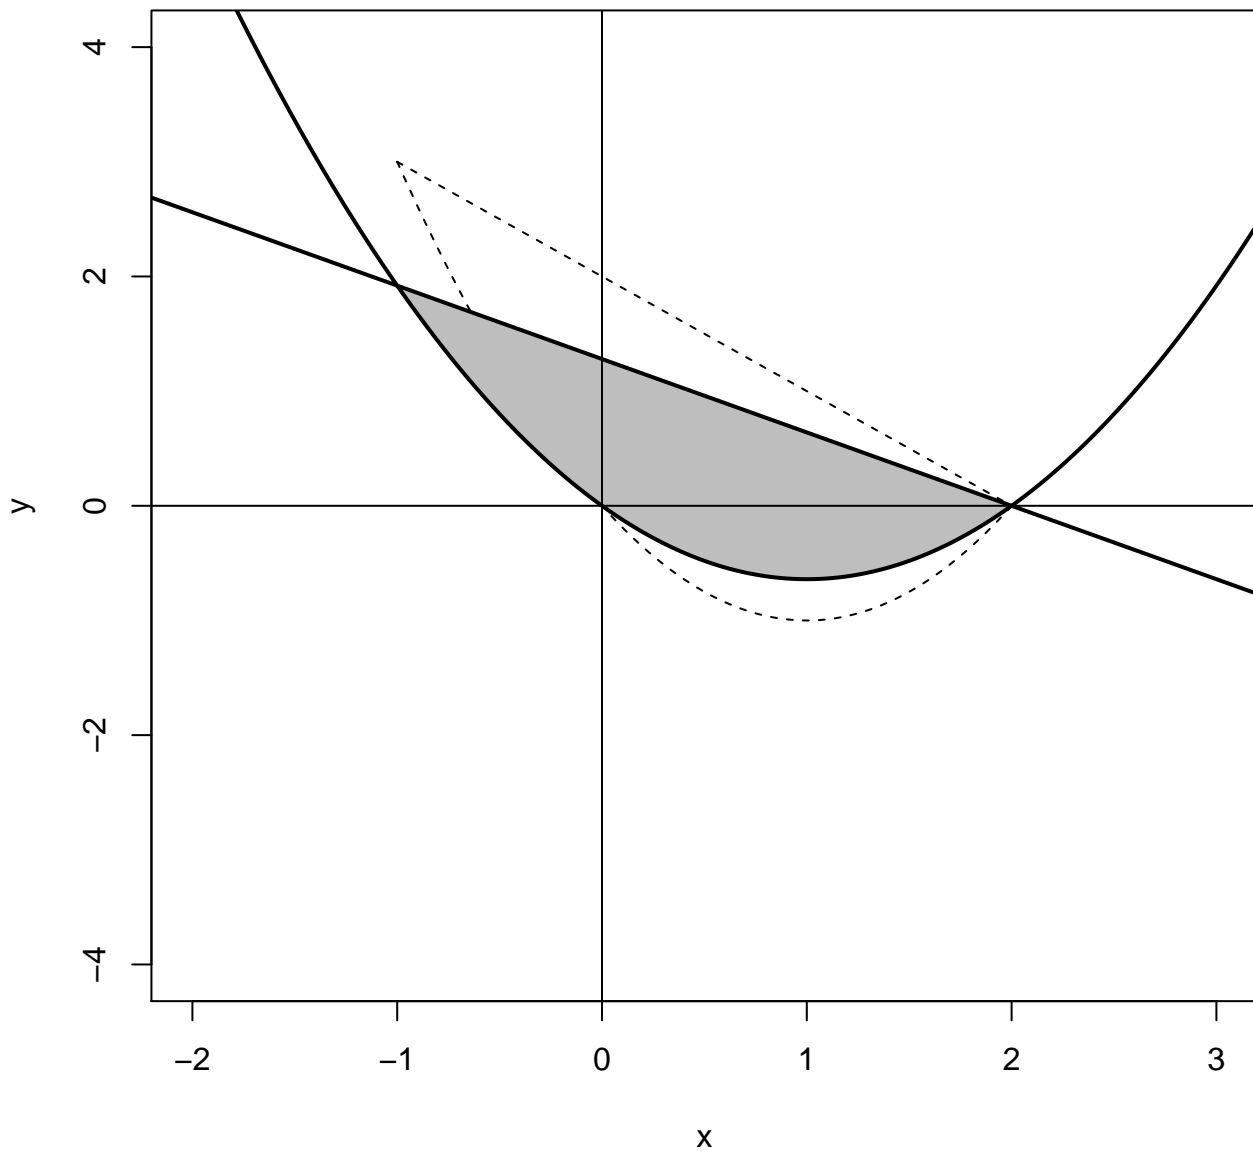

Solid formed by rotating the shaded area about the x-axis

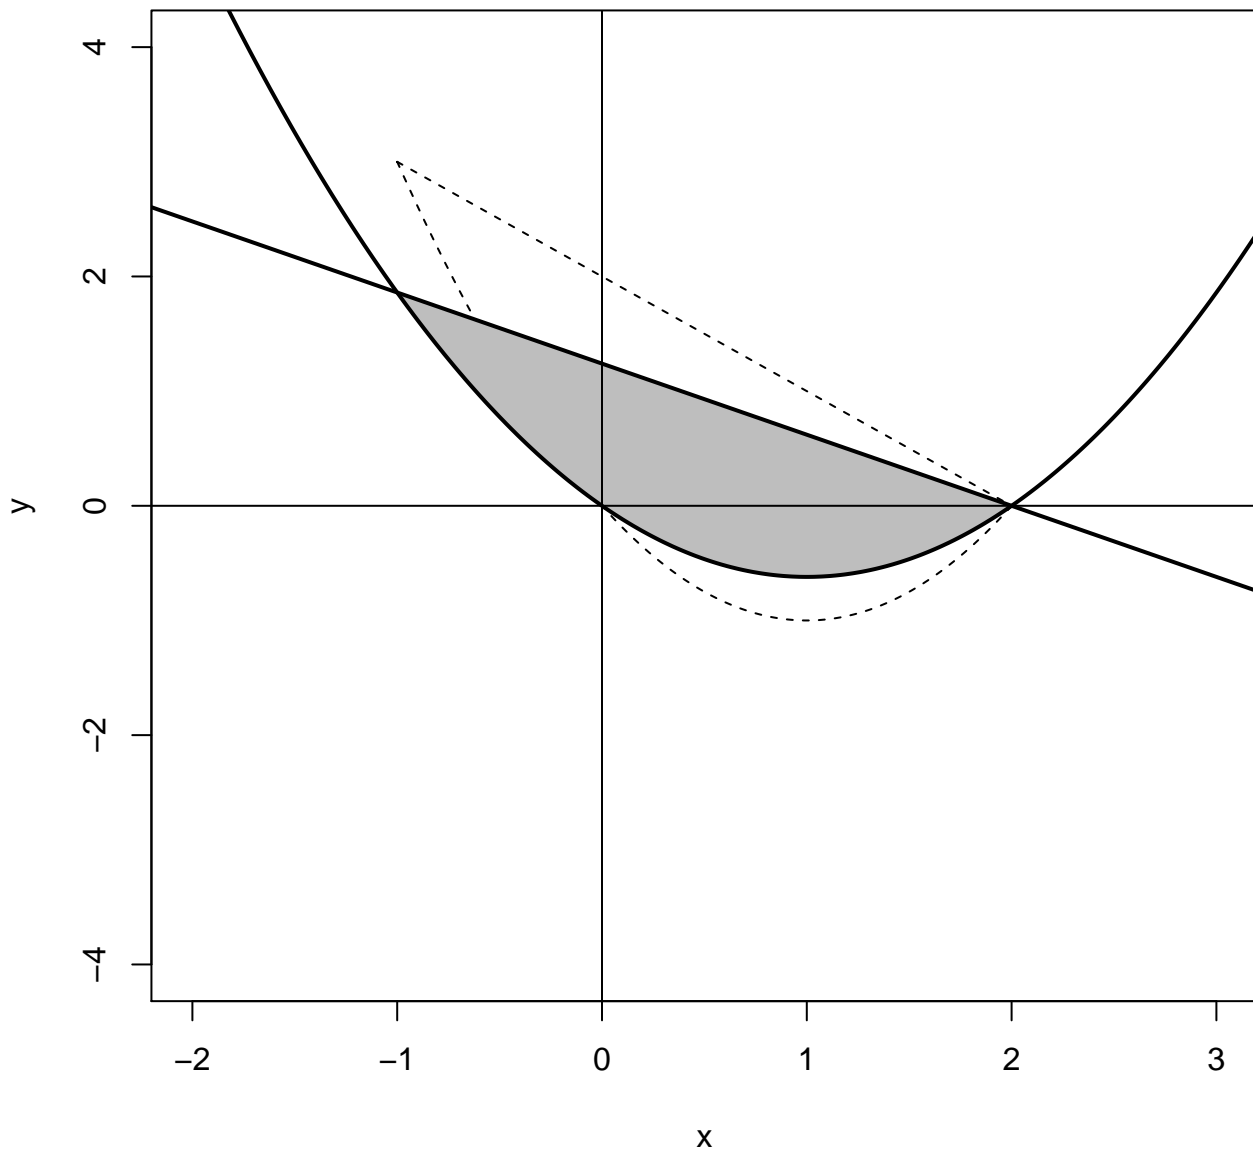

Solid formed by rotating the shaded area about the x-axis

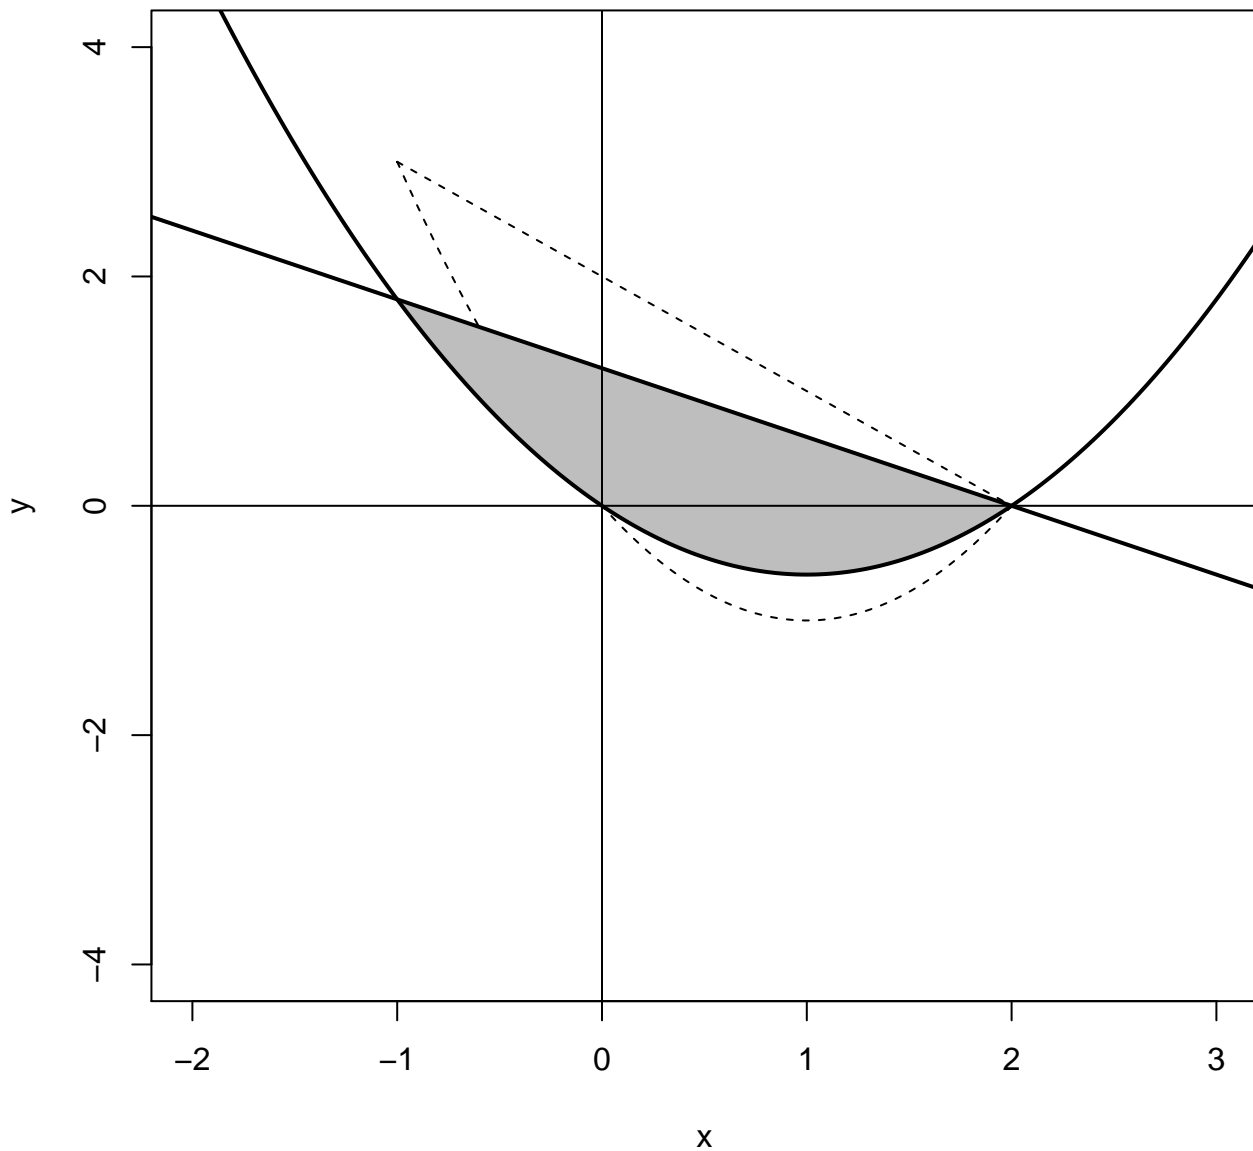

Solid formed by rotating the shaded area about the x-axis

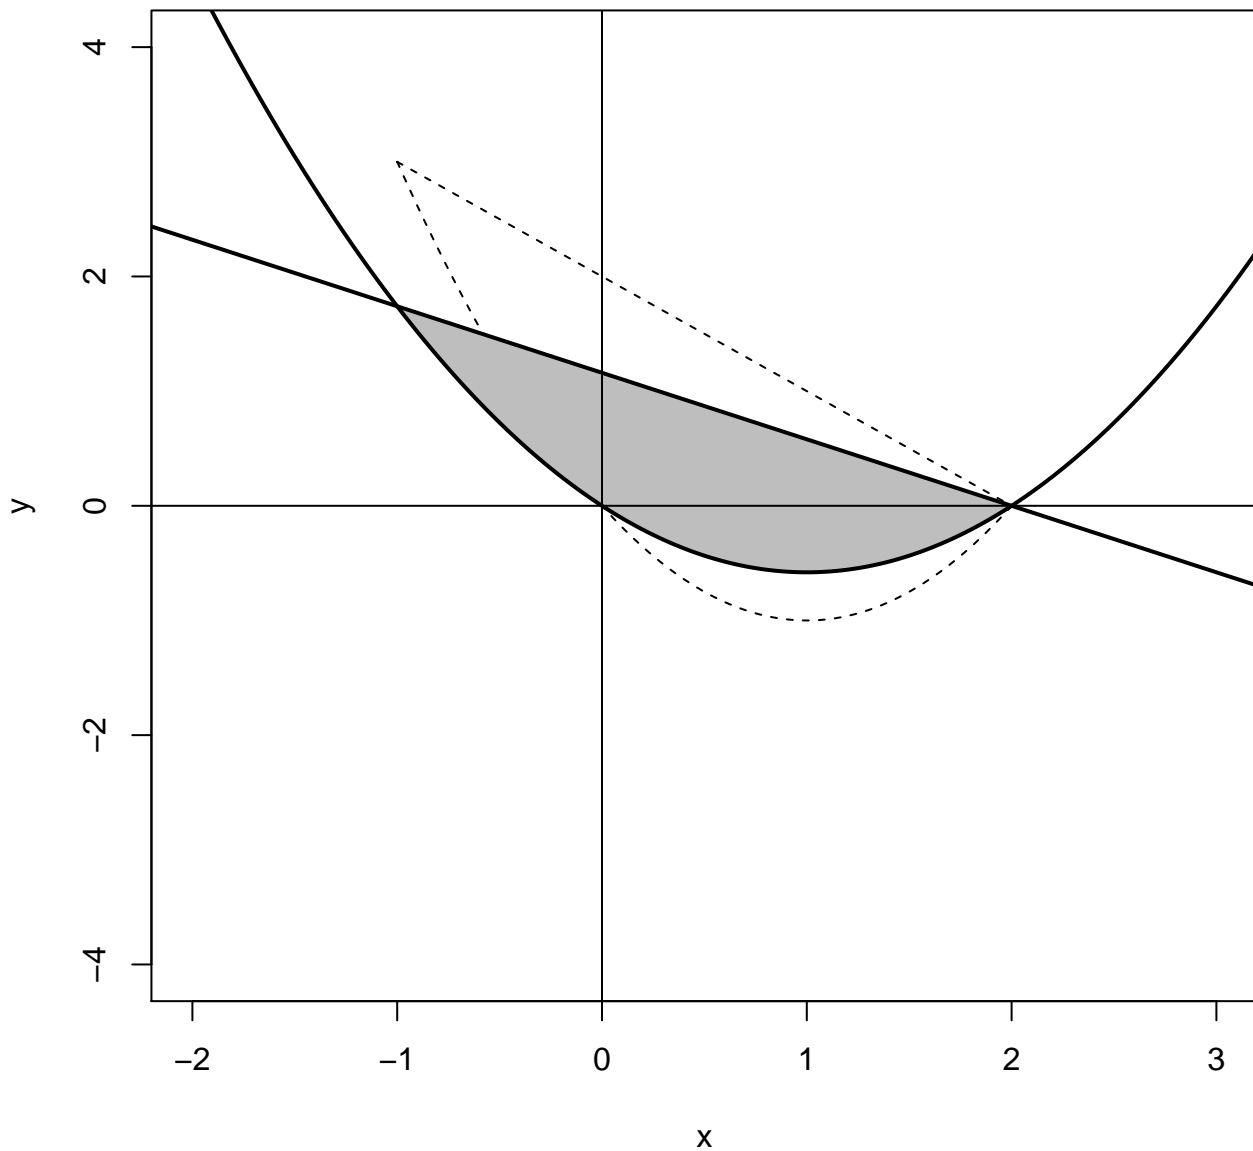

Solid formed by rotating the shaded area about the x-axis

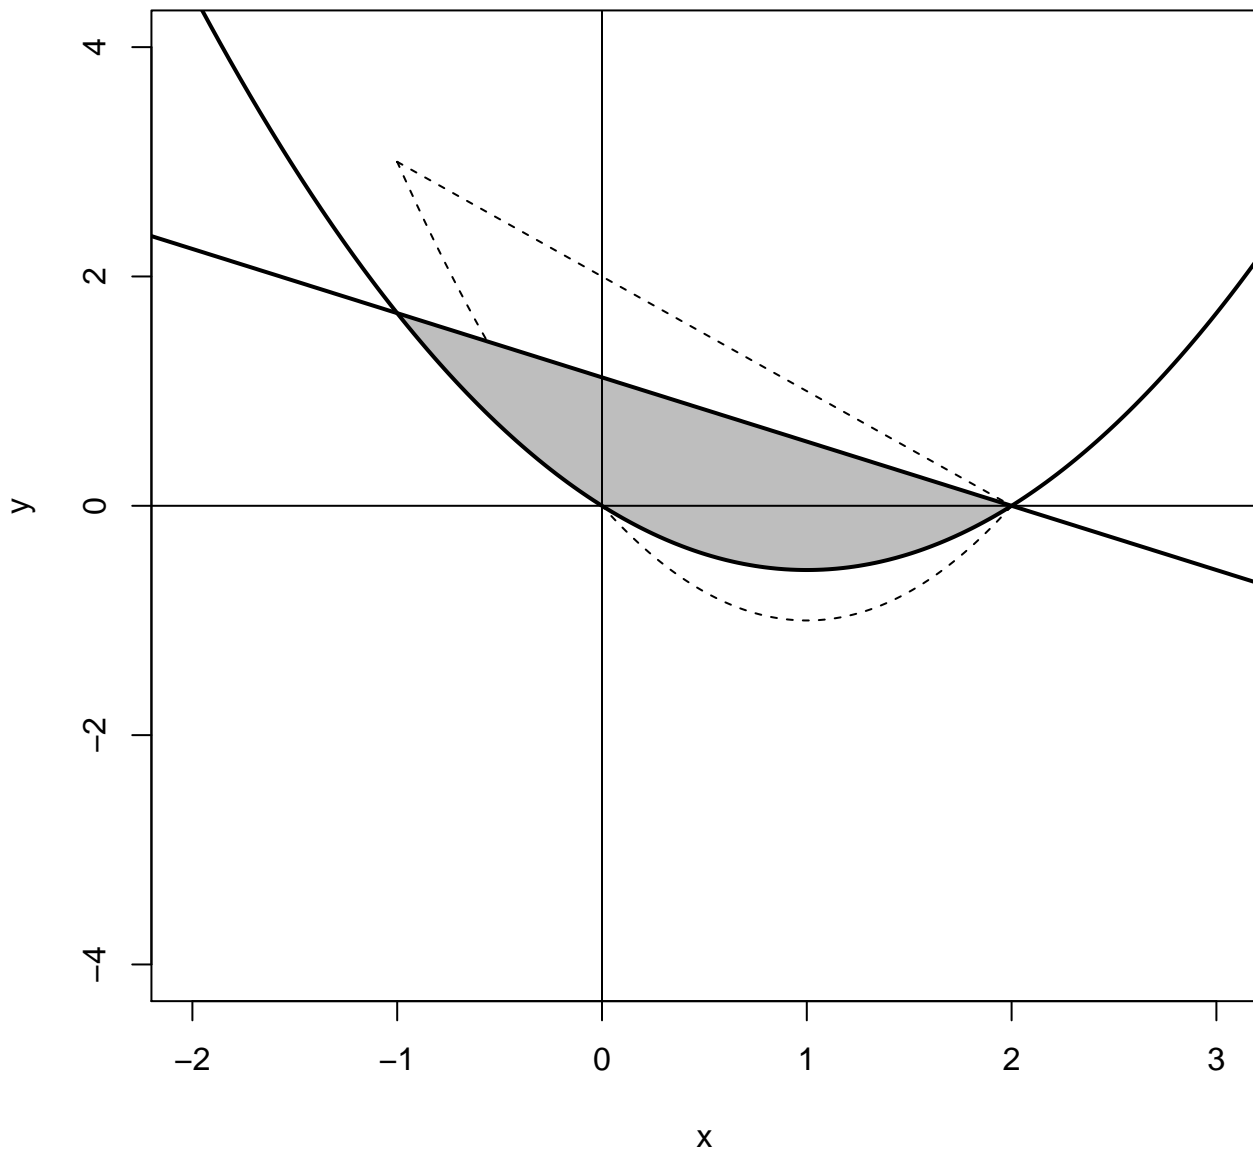

Solid formed by rotating the shaded area about the x-axis

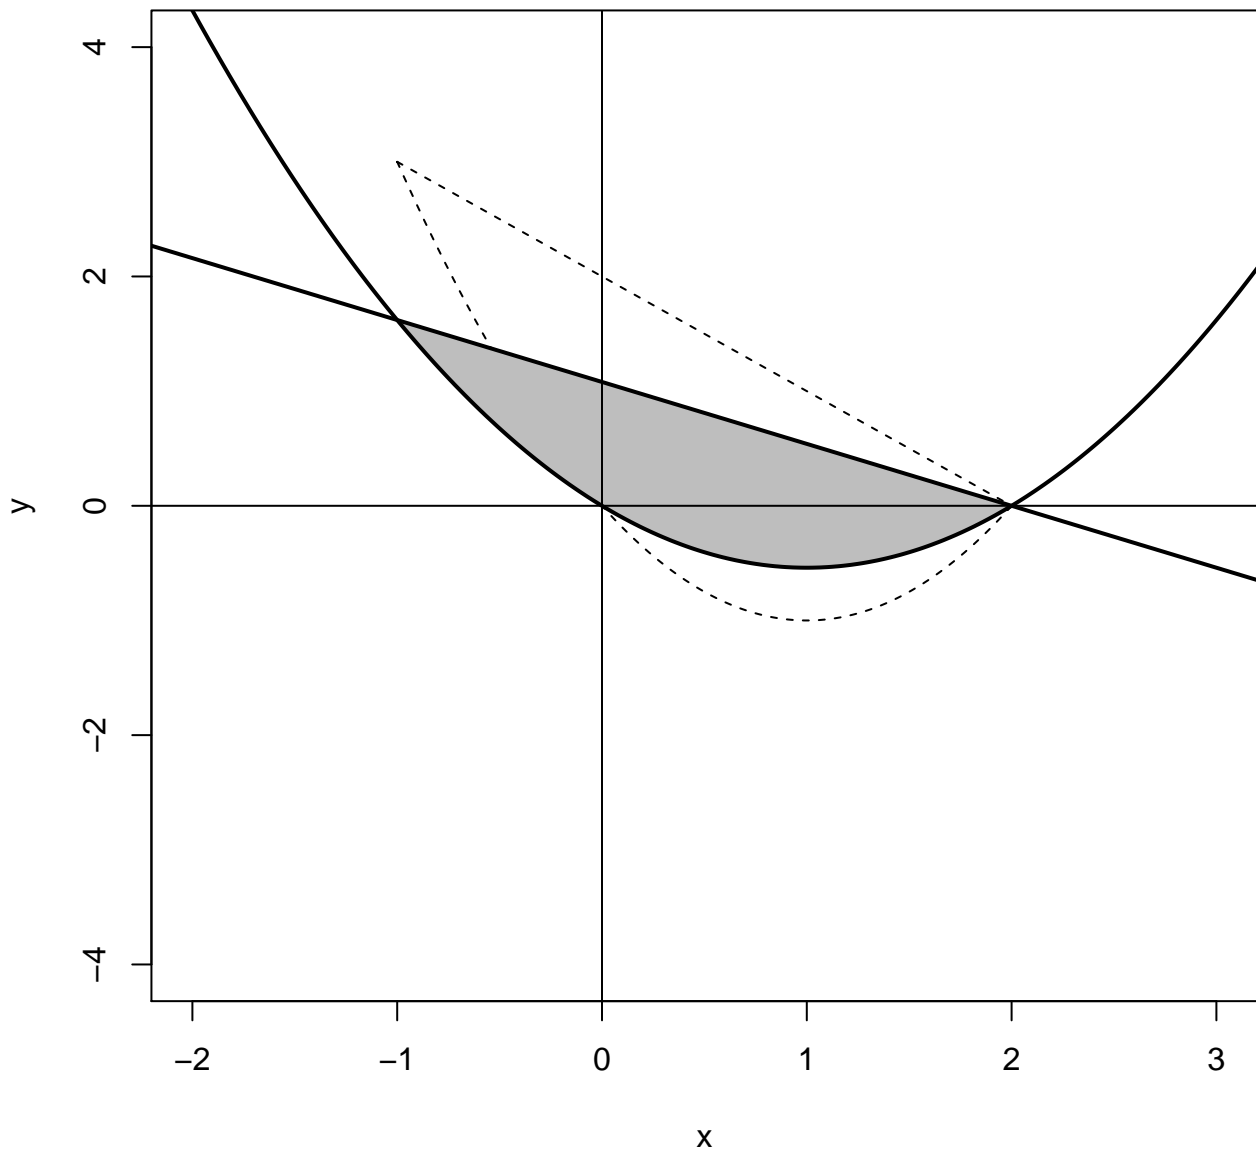

Solid formed by rotating the shaded area about the x-axis

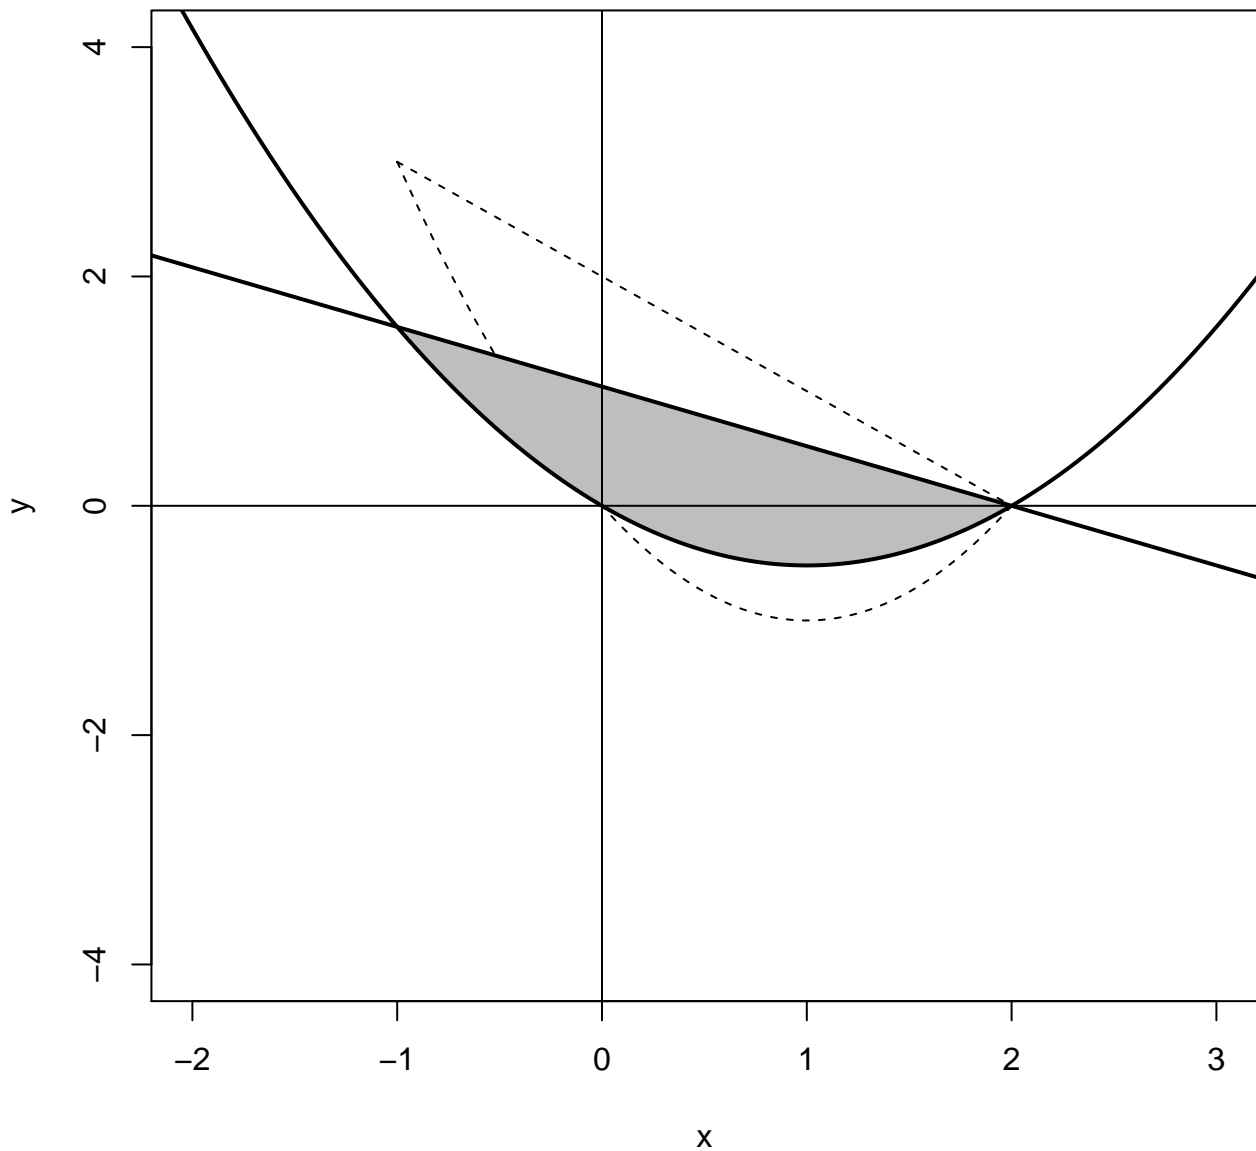

Solid formed by rotating the shaded area about the x-axis

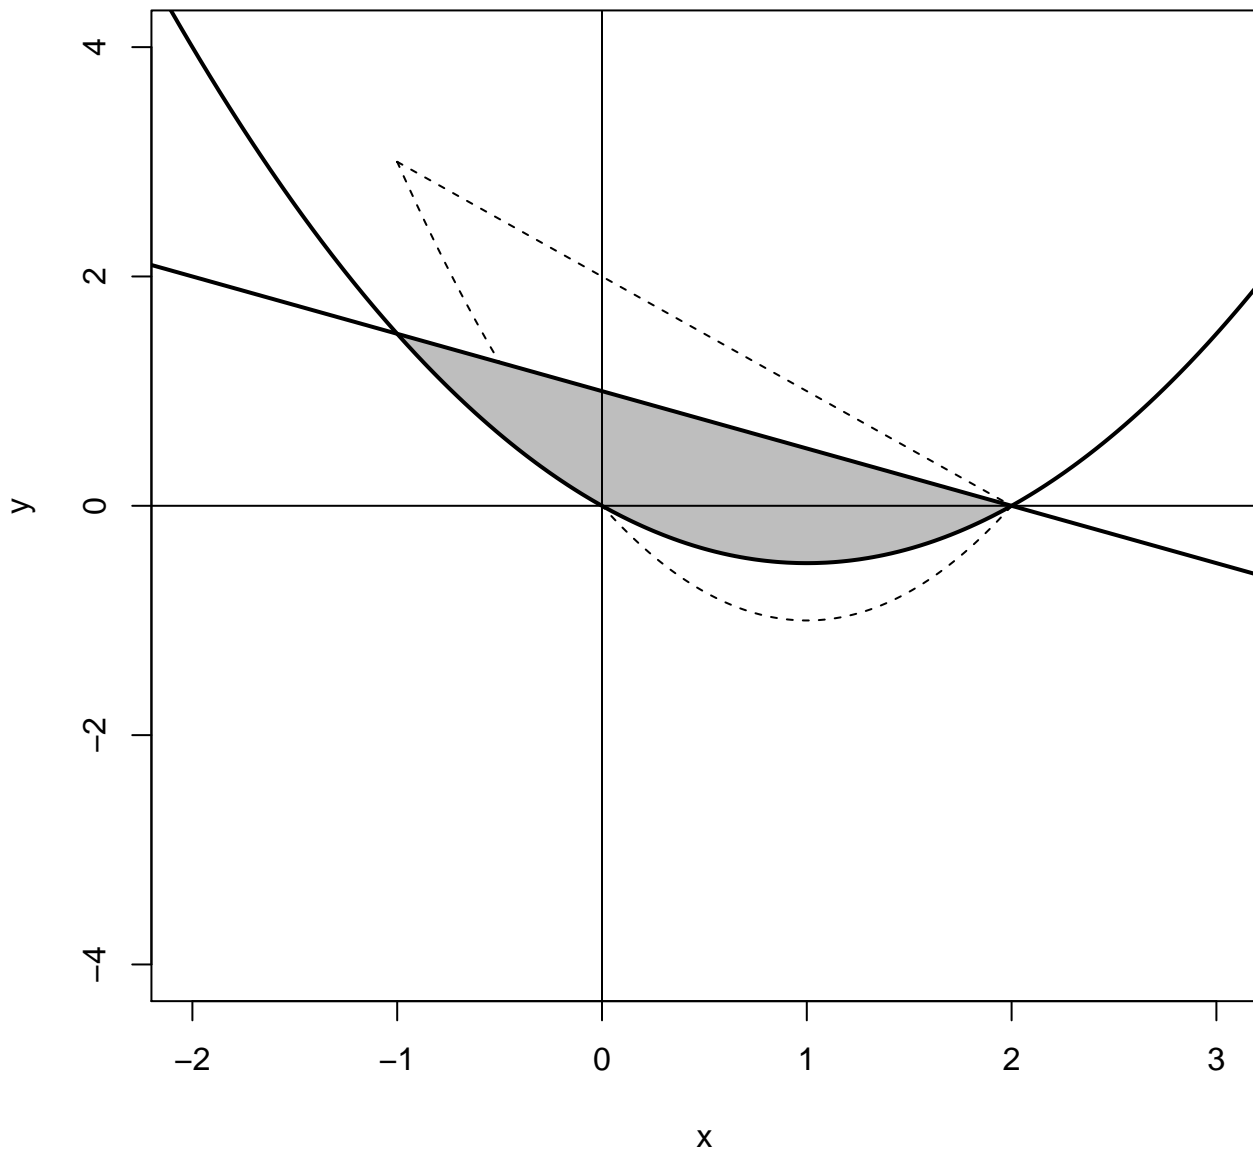

Solid formed by rotating the shaded area about the x-axis
